Subject: Wavier request

Good afternoon,

This is to inform you that I would like to request a waiver request for two missed reporting cycles , in regards to two different elections.

These elections are: November 4, 2014 and October 24, 2015.

November 4th Supplemental Campaign report was filed late because I was unaware that I need to file for a debt that was 100% owed to me, by my campaign. I've been advised of this, and have made the necessary changes.

October 24th 10-P report was reported as being filed 114 days late do to a check I received over \$200.00 but didn't deposit nor use until after thirty days after my campaign. This matter was caught, and I paid a \$500.00 fine to resolve issue. However, this check took me into a filling schedule, I had no idea I was in. Therefore it shows me being 114 days late for an error that was paid, but yet late an additional funds owed due to me accepting responsibility, for me not reporting it 10-P, when I should have. This has really been confusing , but your staff was instrumental in helping me understand it.

I'm seeking a waiver in these matters, and can assure going forward after being informed, these errors want occur again.

Thanks
